

# Vulcan Series<sup>®</sup> Aluminium Shade Screens

Louvreclad Vulcan Series<sup>®</sup> offers striking trapezoid aluminium profiles. Ideal for privacy and sun shading with a clean, continuous look and concealed fixings. Perfect for vertical or horizontal applications.

## Features

### PERFORMANCE

#### Optimal Sun Shading

Trapezoid profiles offer versatile sun shading solution with adjustable pitch and angle for tailored privacy and shading performance.

### AESTHETICS

#### Striking Design

Unique trapezoid profiles provide a modern alternative to traditional screens, maintaining a continuous louvre look with concealed fixings.

### DESIGN

#### Versatile Applications

Suitable for vertical or horizontal installations, the Vulcan Series<sup>®</sup> is ideal for both interior and exterior architectural screening solutions.

## Technical Data Disclaimer

- Indicative maximum span provided are based on generic permissible design wind pressure of 2kPa.
- Span values and product technical information provided are subjected to variance by project specific requirements & influence factors such building location, terrain category & local pressure effects.
- Span values provided are based on typical scenario where product specified are fixed at one end; simply supported at the other end and in either horizontal or vertical orientation.
- If the product specified is required to function as barrier for fall protection or as trafficable element, maximum span and pitch nominated may be reduced.
- Spans values provided could be influenced and reduced when used in dynamically sensitive wind environment.
- For project specific product selection or preliminary design & engineering consultation, please contact 1300 165 678 or [sales@louvreclad.com](mailto:sales@louvreclad.com) to arrange or book a meeting.
