

Axis Series[®] Operable Louvres

Louvreclad's Axis Series[®] is an easy response to changing climatic or environmental conditions with the versatility of manual or automated operation. Allowing 86% airflow when fully open, the Axis Series[®] can also be partly or fully closed to control the entry of cold air, dust and wind driven rain.

Distinctive Features:

- Blades are constructed from sheet metal and are available in Colorbond[®] steel, Colorbond[®] Ultra & Metallic range and Zinalume[®] standard range
- Choice of manual or automated operation
- Controls the entry of cold air, dust and wind-driven rain
- Blades are linked together and operate in unison. Banks can also be linked.
- Good Vision

Attention to Detail:

- The blades open up to 90°
- 135mm blade pitch
- 86% free open area when fully open
- Maximum panel width: 1250mm
- Supplied in assembled panels for ease of installation

RESPONSIVE TO CONDITIONS

Thinking outside for inside performance
