

Vulcan Series[®] Aluminium Sun Screening

The Louvreclad Vulcan Series[®] provides a bespoke Trapezoid configuration that is both versatile and unique. A stunning alternative to traditional feature fins and screens, the unique profiles provide substantial sun screening of distinctive architectural character.

Distinctive Features:

- Trapeziod profile provides 45° screening while maintaining a flat face
- Concealed fixing and continuous louvre design details
- Select the pitch to deliver maximum privacy and superior sun shading performance
- Suitable for vertical or horizontal solar screening
- Can be powdercoated or anodised to any colour
- A selection of widths, configurations and mounting options

Attention to Detail:

- Three distinct profiles available
- Maximum span depends on size of batten, location of building and local wind pressures.
- Designed and engineered for incidental live load
