

Galaxy Series[®]

Louvreclad's Galaxy Series[®] is an operable louvre system that provides a ready-made solution for both natural and fire ventilation purposes. This Louvre design can be operated via manual handles but is more commonly operated via pneumatic cylinders or electric actuators. A spring to open/close configuration is available with thermal links to enable fail-safe operation for fire venting.

Distinctive Features + Diverse Applications + Multitude of Benefits:

- Automated or manual operation*
- Sheetmetal construction and available in steel, aluminium and stainless steel
- Optional powder coated and Colorbond[®] finish
- In the event of fire they can provide automatic smoke and heat exhaust or inlet ventilation

Attention to Detail:

- 85% free open area + fire-tested (AS2428.4)
- Heights are available from 570mm - 5938mm
- Can be interconnected with fire control systems
- When specifying opening size for Galaxy wall louvres, add 15mm to the width and height of the louvre
- Tested and certified for co-efficient of discharge 0.831
- Mass/m² = 10.5kg (Aluminium)

Attention to Detail:

- Co-efficient of discharge = 0.831
- Designed and manufactured to comply with AS 2427-1983:
 - *Rain leakage wind velocity*
 - *Maximum wind velocity for operation*
 - *Structural adequacy*
 - *Corrosion resistance*
 - *Operation under snow loading*
- Tested and certified to satisfy AS 2428-1983:
 - AS 2428.1 - *Determination of resistance to leakage during rain*
 - AS 2428.2 - *Determination of ability to operate under wind loading*
 - AS 2428.3 - *Determination of operating characteristics*
 - AS 2428.4 - *Determination of the effect of flame contact*
 - AS 2428.5 - *Determination of discharge co-efficient and effective aerodynamic area*
 - AS 2665-1983 - *Smoke/heat venting systems*

Technical Specifications

Galaxy 1530	1500	3010	220	24	76	4.004	3.327

Blade pitch is 122 mm.

DRAFT SPECIFICATION

Wall Louvre Ventilators will be Louvreclad Galaxy Series[®] with [width x length] with a coefficient of discharge of no less than 0.831, designed and manufactured to comply with AS 2427-1983, and tested and certified to satisfy AS 2428-1983.

Base Material & Finish

Ventilators will be manufactured in [select base material] finish in [select colour]

Accessories

[Nominate options/accessories from the selection].

Installation and Mounting

Installation and mounting details will be designed in accordance with proprietary systems and recommendations as designed and manufactured by Louvreclad Pty. Ltd. Phone: 1300 165 678 Email: sales@louvreclad.com

Base Material Options

- Zinalume[®]
- Colorbond[®]
- Galvabond[®]
- Aluminium

Finishes Available

Choose from the following range of finishes:

- complete Colorbond[®] range of colours and types

Accessories

Bird/Vermin Mesh

Select from the following:

- galvanised
- stainless steel
- PVC

Operating Options

- Electric actuator
- Pneumatic cylinder

** Manual hand operation options [on Louvreclad operable Louvres] is only available when the louvres are accessible from behind.*

PROFILES

Galaxy Series[®] louvre 220mm frame

Galaxy Series[®] louvre 150mm frame
